

Course Outline

ISO27001 Certified ISMS Lead Implementer Masterclass - 3 days

BENEFIT

Ensure your organisation fully mitigates the risks associated with cyber crime while winning new business. Learn from the experts how to achieve and maintain ISO 27001 best practice and certification.

DURATION

Three days

FORMAT

Classroom sessions from 09:00 to 17:00.

QUALIFICATION

Build your career in senior management by attaining the ISO27001 Certified ISMS Lead Implementer (CIS LI) qualification. Exam included in course.

The most comprehensive ISO 27001 Lead Implementer classroom course available in the UK today.

Developed by ISO 27001 experts Alan Calder and Steve Watkins, and drawing on their industry-leading implementation guide, IT Governance: An International Guide to Data Security and ISO27001/ISO27002, this three-day course covers all the key steps involved in planning, implementing and maintaining an ISO 27001-compliant information security management system (ISMS).

Using a combination of formal training, practical exercises and relevant case studies, an experienced ISO 27001 trainer and consultant will help you to develop the skills required to achieve ISO 27001 compliance for your organisation while reducing costs and avoiding common pitfalls. It also supports professional development: delegates who pass the included exam are awarded the ISO27001 Certified ISMS Lead Implementer (CIS LI) qualification by IBITGQ.

WHAT WILL YOU LEARN

- Securing senior management commitment and building the business case.
- The role and structure of an information security policy.
- How to determine the scope of your ISMS based on the requirements of ISO 27001.
- Developing a management framework.
- How to structure and manage your ISO 27001 project.
- How to allocate roles and responsibilities for your ISO 27001 implementation.
- The definition of risk in ISO 27001 and options for risk assessments under the Standard.
- The benefits of, and key issues when selecting, a risk assessment tool.
- How to carry out an information security risk assessment - the core competence of information security management.
- The Statement of Applicability (SoA), and justifications for inclusions and exclusions.
- Reviewing your existing controls and mapping controls to Annex A of ISO 27001.
- The importance of an effective communication strategy.
- Writing policies and producing other critical documentation.

- The importance of staff and general awareness training.
- The key elements of management review.
- How to manage and drive continual improvement under ISO 27001.
- How to prepare for your ISO 27001 certification audit.
- Important information to ensure that you pass the audit first time.

ISO27001 CERTIFIED ISMS LEAD IMPLEMENTER (CIS LI) EXAMINATION

This course is part of our unique ISO 27001 Learning Pathway.

Delegates sit the ISO27001 Certified ISMS Lead Implementer (CIS LI) examination at the end of the course – a 90-minute multiple-choice exam accredited by IBITGQ. There is no extra charge for taking the exam at the end of the course.

WHO SHOULD ATTEND THIS COURSE

Anyone involved in information security management, writing information security policies or implementing ISO 27001, either as a Lead Implementer or as part of an implementation team.

This course also qualifies for 21 CPD/CPE credits and fits well with the CISSP and SSCP CPE programme.

ENTRY REQUIREMENTS

There are no formal entry requirements. However, it is assumed that you will have a basic knowledge of ISO 27001 gained through practical experience, reading the ISO 27001:2013 standard, or by attending the ISO27001 Certified ISMS Foundation course.
