

ISO 14001:2015 Implementation

OVERVIEW

Develop the knowledge and skill required to implement an ISO 14001:2015 Environmental Management System (EMS).

Businesses are becoming more aware of the environmental implications of their operations, products and services. Increase long-term profitability with an internationally recognized EMS that will continue to benefit you in the future. Implementing a framework based on ISO 14001:2015 allows your organization to reduce environmental impacts and increase operating efficiency. This can help you cut waste, prevent pollution and save resources. Gain the required skills to conduct a base-line review of your organization's current position and implement the key principles of ISO 14001:2015. Using a step-by-step approach, you'll learn how to develop an implementation plan, create necessary documentation, monitor your EMS and achieve continual environmental improvement.

Our expert tutors will guide you from scoping your environmental policy needs to putting these in place and monitoring your overall EMS.

WHO SHOULD ATTEND?

- Anyone involved in the planning, implementing, maintaining, supervising or auditing of an ISO 14001:2015 EMS

WHAT WILL I LEARN?

You will learn about:

- A typical framework for implementing ISO 14001:2015 following the PDCA cycle
- Considering key concepts and requirements of ISO 14001:2015 from an implementation perspective
- Implementing key concepts and requirements of ISO 14001:2015
- Specific documented information requirements of ISO 14001:2015
- Using gap analysis to conduct a baseline review of your current system

HOW WILL I BENEFIT?

This course will help you:

- Identify key benefits to your organization from implementing an effective EMS
- Develop a plan and determine the resources required for the implementation
- Apply good practice to the implementation using proven tools and techniques
- Implement a system that considers socio-economic needs and environmental conditions
- Provide products and services that consistently meet customer and regulatory environmental requirements

WHAT'S INCLUDED?

- Detailed course notes
- Implementation toolkit
- Lunch
- Refreshments

- Internationally recognized BSI Training Academy certificate
